REMARKS

25X1

1. On 19 May 1954, neither motor traffic nor military personnel other than sentries with red-bordered black epaulets were observed at the office on Hoven Gasse at the Albrechts Kaserne, and the camp on the Loebendorf road in Korneuburg (O 49/S 30). No weapons were seen at the two latter installations. Local residents said that the troops had departed.
2. On 19 May 1954, no motor vehicles or weapons were observed at the Irinz Eugen Kaserne in Stockerau (O 49/S 21), which was guarded by a sentry wearing red-bordered black epaulets with artillery insignia, and the Artillerie Kaserne in Stockerau, which was guarded by a sentry wearing red-bordered black epaulets. Ten soldiers wearing red-bordered black epaulets played games in the area of the Artillerie Kaserne. The buildings of Irinz Eugen Kaserne were reconditioned. Driving-school trucks [redacted] 625X1 with red-bordered black epaulets, were parked in front of the billets on Schaumann Gasse, which were guarded by a sentry who wore red-bordered black epaulets. The troops apparently were absent from the station.

Comment. Except for guard personnel, the 23d AAA Div apparently, 25X1  
its stations at Kornauburg and Stockerau, presumably for record firing  
practice at the Apetlon AAA range or exercises at the Doellersheim training  
camp. 25X1  
The two driving-school trucks reported from Stockerau  
belong to the 23d AAA Div.
